

I work in a very stressed work place, K-LOVE is my safety net on my way to and at work. I have shared this station with so many people who live in surrounding areas and those not in city that I am afraid they may lose the signal. Please as a traveler in this grand land of ours, I beg of you to not replace my K-LOVE station, my safe haven in the day to day tasks is my K-Love. I speak for my family as well. We have listened to this wonderful station for approx 10 years.....Thank you for your attention to our plea. Daphne
